

My Future By Sofia Hill

Dental Assistant

Dental Assistants clean and remove hard and soft deposits from teeth. They polish them, removing plaque and stains. They prepare tests for the dentists to interpret, carve filling materials, and show patients how to properly brush and floss teeth. There are many flexible hours for this job. You can work 2 to 3 days a week and less than 35 hours a week. They work in clean and well lighted offices. The salary can vary in many ways. You can be paid by the hourly, daily, salary, or commission base. A high school diploma and college entrance scores are usually required for admission to a dental hygiene program.

Child Care Worker

A child care worker watched over young kids who are not yet in the school setting. They can supervise kids before and after school. They organize activities, for kids to make them grow, explore interests, help with daily routine, and include them in playing games. The hours vary, depending on the parents schedule, but it is usually during the work and school hours. They work either in their homes, the child's home, or a specific center. You need a high school diploma, a CDA, and a state license to supervise and take care of children. The annual earnings of wage and salary would be around \$17, 630 and the middle earned can earn between \$14,790 and \$21,930. It requires patients, creativity, the ability to nurture, motivate and teach.

Interior Design

I think being an interior designer would be a fun job. You plan the design for all kinds of rooms and spaces. They choose color plates, the furniture, floor pattern, and window coverings. You have to be able to understand building and fire codes and read blue prints. While working you are often in house or other buildings, and you are around people a lot. You have to be good with communicating and listening to the Clients needs and wishes. The annual earnings would be around \$42, 260 and the middle earnings can be anywhere between \$31, 830 – \$57, 230. Training Programs are available from professional design school or colleges usually take 2 – 4 years to complete.
